HAHN KT-V 6R / HAHN KT-V 6R WITH KT-FIX

DESCRIPTION

HAHN KT-V 6R – MODERN DESIGN WITH RELIABLE TECHNOLOGY

The Hahn KT-V 6R premium hinges accentuate the beauty of attractive doors with their subtle design and stand out because of their efficient, high-calibre installation technology. Hinges of the series achieved hinge class 14 rating for very high loads during testing for the CE labeling and thus may also be installed on emergency exit doors. A good fit is also ensured even with doors that have high heat insulating chambers. CE-approved as per EN 1935, these hinges support doors weighing up to 160 kg – depending on the design of the sections. All adjustments can be performed on site by one person without having to raise or remove the door. As tried, tested and proven in real world applications, the door hinge can be adjusted variably in six directions.

- Areas of application: Doors made of PVC sections, suited for both residential and commercial structures
 - Main entrance doors
 - Side entrance doors
 - Exterior doors
 - Interior doors
 - Entrance doors for flats
- Same appearance retained after adjustment
- Special fastening screws included in the scope of delivery
- Door hinges are largely pre-assembled

SYSTEM / APPLICATION

- Material: Made of extruded aluminium
- Fastening methods:
 - Direct screw connection in frame and door, optionally available with Hahn step screw
 - Now available with KT-FIX fastener
- Versions: 5 upstand ranges 15–20 mm, 16,5–21,5 mm, 18–23 mm, 20–25 mm and 22–27 mm
- Load capacity: Depending of profile section design max. 160 kg
- Adjustability:
 - Without raising or removing the door adjustable in 6 directions
 - Horizontal adjustment variable ± 5 mm
 - Height adjustment variable $+4$ mm / -3 mm
 - Changing the sealing pressure within the upstand range plus a 0.5 mm margin on both sides
- Certifications:
 - CE certified according to EN 1935:2002, hinge class 14
 - SKG 2 stars
- Colours: Hinges deliverable in anodised colours and RAL colours
- Can be used on left or right
- Bearing point maintenance-free

EINSTELLANLEITUNG

Notice de réglage Adjustment instructions

Verstellung an der eingehängten Tür · Réglage de la porte gondée · Adjustment of the installed door

Dichtungsdruck stufenlos verstellen.

Veränderung des Dichtungsdrucks innerhalb des Aufdeckbereichs plus beidseitig 0,5 mm Reserve.

Réglage en continu de la compression du joint d'étanchéité.

Modification de la compression du joint dans la plage de recouvrement avec 0,5 mm de réserve en plus dans chaque direction.

Sealing-pressure adjustment, infinitely variable.

Changing the sealing pressure within the upstand range plus 0.5 mm reserve on both sides.

Horizontalverstellung · Réglage horizontal · Horizontal adjustment

Abdeckstück andrücken und abschieben.
Appuyez sur le cache-vis et retirez-le en le glissant sur le côté.
Press on and push off the cover strip.

Lösen, falls Abdeckstück gesichert.

Desserrez si le cache-vis est bloqué.

Unscrew if the cover strip is secured.

Abdeckstück aufsetzen und einschieben.

Positionnez le cache-vis et glissez-le sur le corps de la paumelle.

Put on and fit in cover strip.

Halteschraube festziehen – Abdeckstück gesichert.

Serrez à fond la vis de fixation – cache-vis bloqué.
Tighten locking screw – cover strip secured.

Horizontalverstellung

stufenlos ± 5 mm

Réglage horizontal continu ± 5 mm

Horizontal adjustment infinitely variable ± 5 mm

Höhenverstellung

Stufenlos aus der Nullstellung.

Anheben + 4 mm / Absenken – 3 mm

Réglage vertical

Continu à partir de la position zéro.

Soulèvement + 4 mm / abaissement – 3 mm

Height adjustment

Infinitely variable from the zero position.

Raising + 4 mm / Lowering – 3 mm

Wichtig! Verstellung immer nur an der geschlossenen Tür!

Important : Réglage uniquement sur porte fermée !

Caution: Adjust only when door is closed!

Achtung:

unteres Band soll tragen, obere Bänder nur nachstellen.

Attention :

La paumelle inférieure doit porter; effectuez le réglage sur cette paumelle et réajustez seulement les paumelles supérieures, si nécessaire.

Caution:

The bottom hinge should bear the weight, only readjust the top hinges.

Lagerbuchse aus wartungsfreiem teflonhaltigen Kunststoff – keinesfalls schmieren!

Douille en matière plastique à teneur en téflon ne requérant aucun entretien – ne graisser en aucun cas !

Bearing bushings made of maintenance-free PVC containing Teflon – do not lubricate!
